

WELCOME!

HERE ARE SOME PRINTABLE PRACTICE PAGES TO GET YOU STARTED

Keeping track of practicing helps keep students on track, and is a great time capsule to show them how far they have progressed!

Print out for each lesson and write down your student's homework, then give it to them to put in a folder or binder.

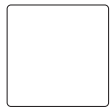

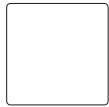

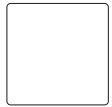

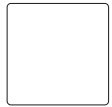

Each day when they practice, have them check off one of the checkboxes!

If you're left wanting more, a full, more detailed notebook is available for students (or teachers!) with lined paper for lesson notes, another staff line and more fun features to help keep your students on track.
